

What gauges connect to ElcoMaster

ElcoMaster is a PC and Mobile App which has been designed to make the coatings inspection reporting process easier and more efficient than ever before.

Its compatibility with all of Elcometer's digital coating inspection gauges means that you combine a variety of parameters such as Dry Film Thickness, Surface Profile, Surface Cleanliness, Climate, Adhesion and Gloss into one full inspection report.

Alternatively, you can choose to create a series on individual reports specific to appropriate parameters.

For more information on ElcoMaster, visit www.elcometer.com/elcomaster or search 'ElcoMaster' in the App Store or Google Play to download now.
